

Reference (offline ASR is correct): "I came for information more out of curiosity than anything else"

Offline (full utterance):

"I came for information more out of curiosity than anything else." ✓ **WER 0.00**

Streaming, 320 ms chunks (no future context):

"I - for information. more I will see you in the next video. of courgette. than any other city. else." ✗ **WER 1.18**

Each 320 ms chunk is decoded with no future context → the frozen decoder fragments the sentence and hallucinates filler ("I will see you in the next video", "courgette").
